SUMMER 2023

WELCOME TO 1UV GALLERY STUDIO

1UV is my working studio and exhibition space (aka gallery). Since opening in February I have fielded a lot of strange questions. I guess the people of Saratoga weren't expecting anything other than another place where they can eat and drink or get their hair cut to open up in their village. It has surprised me to hear over and over, "How much is your rent?" Or "How much money do you make?" Or "Do you teach classes?" Or "Where are you from?" Perhaps after Covid people can't wrap their heads around the thought of an old fashioned Art Gallery opening. I don't know. All I know is I never expected to have to explain what an Art Gallery is to so many people.

The reality is, the model of my business is a very old and traditional one. Pre-WWII it was not uncommon for downtown communities to include Artist studios where you could visit the Artist and purchase their work directly from them. It's not that the gallery didn't exist. They did. But Artist studios were every bit as celebrated and were often a hip spot to go for entertainment and social interaction. One such Artist who was famous for his studio was Pablo Picasso.

After WWII the Arts saw the rise of the Gallery and it became taboo for an Artist to promote and market themselves. Perhaps this was due to the politics exercised and created by the NAZI plundering of private and public collections of Art. A class of people rose who

desired to act as “protector” of Art and Culture. Or maybe it was just seen as a good way of making money for those with the appropriate intellectual prowess. I can understand the desire to open a Gallery. What spurred me to finally invest the money in opening a brick and mortar was when five paintings, their inventory files, and a hand drawn blue print I drew for the studio I wanted to build on my home property were stolen out of my house. It wasn't the first time Art had been stolen from me. It was just the straw that broke the camel's proverbial back. If my work is worth stealing surely it must be worth selling.

Including my studio in my exhibition space was more of a necessity than an intention. Once I paid the cost of opening a brick and mortar I didn't have it in the budget to hire staff. Besides, I was tired of living in my work space. When you live in your work space you never stop working. So, opening a traditional Artist's Gallery-Studio hit two birds with one stone, so to speak. I don't teach classes, but in addition to my Artwork I also host creative social events. So, join me some time for a 1UV a kind experience...

1UV COLUMNS & CLASSIFIEDS

Columns are the perspective of the author | Classifieds are paid/for sale

LIMITED PALLET

By: Larissa

LIMITED PALLET is a vegetarian centered column. I am lacto-ovo vegetarian. This means, in addition to items from the Plant Kingdom, I eat animal products limited to eggs and dairy. I also eat organisms from the Fungi Kingdom, as well as bee products. LIMITED PALLET is a column devoted to lacto-ovo centered culinary experience. Just FYI...my husband eats meat and I prepare meat for him. Also, some recipes I prepare at home are vegan and/or gluten free. Some topics you might see in future articles are:

The Dish...

Fully vegetarian eateries are few and far between. For a vegetarian of any type it can be difficult eating with friends and family or out at restaurants. Future articles may highlight particularly delicious vegetarian meals enjoyed at local eateries or recipes I have created that were particularly successful.

Server Spotlight...

Sometimes vegetarians meet disdain when asking Servers about ingredients of menu items. Future articles may feature particularly good Servers at local eateries. Waiting tables is hard. I did it for years and appreciate the nuances of the job. A good serving staff is invaluable.

REIKI, CHRONIC PAIN, & DOGS by: Larissa

I live with chronic pain as a result of a history of severe injury. Given the Global problems due to opiate addiction AND the fact that I am allergic to opioids, I seek out methods other than pharmaceuticals to handle my high rate of chronic pain. Things I do to help manage pain include: yoga, CBD and other herbal remedies, massage, chiropractic work, acupuncture and Reiki.

Reiki came into my life through serendipity. In the early 2000's my husband and I travelled to Australia. Plane travel inflames my injury and I had a bottle of Vicodin my doctor at the the time prescribed to me for when the pain was over the top. I never enjoyed taking the pills. There was always some mild but unpleasant side effect, but this time it was horrible. That's how allergy works. Reactions become progressively worse. This particular time I hallucinated vile violent things. When it finally wore off I swore never again. After we returned home to the States I was walking down Castro Street in Mountain View and saw a sign in front of The East West Book Store that said: "Today - Reiki Sessions with Reta Coolin. Inquire inside."

LIVING POETIC

By: Larissa

LIVING POETIC features original poetry. The poetry may be by me or another poet. To submit your poem email Larissa@1uvgallerystudio.com. Submission does not guarantee publication. I will let you know if your poem is accepted for publication.

The following poem is from my new book: DREAMSCAPES Volume I. It is the poem that accompanies the cover image (above). The image and the poem share the same title.

DREAMSCAPE #1

I don't know where your
happiness lay
Mine lay in that ice sky
Across black waters
From some fine porcelain cup I
drink
And when the nightless sun sets
Pull me close

Just the night before I had been chatting on the phone with my mother about my trip and she told me she had met a Reiki practitioner. She explained it was an ancient healing modality from Japan that utilized the laying on of hands. I thought it sounded interesting but didn't think much of it. Then the very next day I came across this sign. I went in and had my first Reiki session. The experience was so gentle and profound that I bought a bunch of books to learn about what I had experienced and searched for a teacher with whom to study. By 2006 I was a certified Reiki Master/Teacher.

Reiki alone has not cured my chronic pain, but it has saved me in times of great physical distress...and other people and animals love it too. Especially dogs. Dogs in Saratoga drag their people in my open door day after day. Dogs, like Ralphie (in the photo on the previous page), come in and plant themselves at my feet with their people marveling and apologizing. No apologies necessary. Your dog is asking for Reiki because it feels good and comes from only the Highest Good. Reiki can speed healing from surgery and bring comfort in the hardest of times. I can't guarantee a cure but I can guarantee comfort and no harm...which is more than a lot of medical practitioners serve. See the section on Creative Services for information on scheduling an appointment for you and/or your pooch.

VESTMENTS FOR A SPECIES IN PERIL

A "vestment" is a holy garment meant to be worn during ceremony or ritual. The pattern of my jackets is inspired by the unisex traditional Japanese garment/robe, the Kimono.

This series is a comparison between Oriental and Occidental religious and spiritual practices and traditions in the context of a species fighting for survival on the shared living organism of Planet Earth. We truly aren't that different from each other and in the end we will all go down with the ship we share if we can't get over ourselves.

In addition to the creation and sale of her original Artwork and social events, at 1UV, Larissa offers a variety of creative services at varying rates including: consultation services, private shopping, and Reiki. Book your Tuesday or Thursday appointment in person at 1UV, by calling 408-647-2518 or emailing Larissa@1uvgallerystudio.com.

Examples: T-shirts or infant clothing can become quilts or rugs. Heavier textiles can become yoga bolsters and bricks. Other loved one's items can be worked into a Black Friday Jacket or other garment.

CREATIVE CONSULTATIONS generally last one hour. In that time choose the type of item you would like Larissa to make and share the story of your textile with her. Knowing the history of your textile(s) will help Larissa utilize and design your custom work for you. This time will also be used to project a timeline for the completion of your piece.

CREATIVE CONSULTATIONS cost \$100. This cost is non-refundable and will be applied to the total cost of your custom piece. Quilts start at \$200. Yoga props start at \$100. Black Friday Jackets and other garments start at \$300.

SPIRITUAL CONSULTATION - schedule a Spiritual Consultation when you have a spiritual/super-natural experience you don't feel comfortable sharing with just anyone, when you have dis-ease in your spirit and have nagging questions you would like to discuss in a judgement free space. Larissa is a licensed non-denominational minister. Consultations are confidential.

SPIRITUAL CONSULTATIONS generally last between one hour and an hour and forty five minutes. That time may include tarot readings (Larissa reads three decks), chakra clearing, and/or intuitive reading. Larissa has been reading for two decades. Spiritual Consultations are an opportunity to look at difficult situations from a different perspective. Consultation is NOT therapy.

SPIRITUAL CONSULTATIONS are \$300.

PRIVATE REIKI SESSION - Reiki is an ancient energy healing modality/martial Art, accredited to Usui Sensei from Japan. It works to bring balance and relaxation to mind, body and spirit. Reiki translates to: Universal Life-force Energy. Larissa has been a certified Reiki Master/Teacher since 2006. Reiki Sessions are confidential.

PRIVATE REIKI SESSIONS generally last between one hour and an hour and a half. Reiki does not require the removal of clothing. You will be asked to remove your shoes. Reiki treatment may include laying on of hands depending on the comfort of the client. Larissa is not a medical doctor. She does not make diagnosis or prescribe substance.

REIKI SESSIONS are \$150. Minors may be treated if a parent is present. Pets may be treated as well. Pet Sessions are fifteen minutes to half an hour and cost \$75.

CALLING ARTISTS & BUSINESSES TO SIGN UP FOR SARATOGA/LOS GATOS SLOW ART DAY 2024

Slow Art Day is celebrated by setting aside two hours of your day. The first hour is spent slowly and quietly looking at 5 works of Art with others. The second hour is spent talking about that experience over drinks and/or a meal together. Join 1UV, La Fondue, Florentine, Cinnabar Tasting Room, uncorked, and ManyFriends Brewery in celebrating *International Slow Art Day 2024* on April 13, 2024. 1UV is organizing a Saratoga/Los Gatos event. Attendees viewing Art and having discussion will buy a ticket on the Eventbrite platform for the Viewing Venue/ Restaurant pairing. The Restaurant/Winery/Brewery will set a menu for the event. The ticket price will cover the cost of the menu and Venue cover charge per registrant. The cool thing about this event is it is free for Artists, Art Viewing Venues and Libation Businesses to participate, creates an opportunity for artists and local businesses to grow their business AND is part of a larger International event. Plus, the way I am proposing we approach our event no one will need any special permits or licensing other than what you already have to operate your business.

Yes, kids can make Art, but Art is NOT child's play...

The role of Art, Artist and Art exhibition space is a serious and essential part of all healthy cultures and economies. Often Art is considered something children do for fun, but Art has a much more serious role in society and history. Yes, kids make Art in school or at home for fun, but the Artist creates to reflect upon and document humanity within the time the Artist lives. The Artist's record (Art) remains as a challenge to those who would alter written history. The role of Art Collector is to help preserve this record for future generations. While a child's drawing on your refrigerator may brighten your day, a work of professional Art could very well save lives some day.

Slow Food...

Slow Food seeks to bring balance, flavor and sustainability to our relationship with food. Slow Food focuses on local in-season ingredients prepared fresh and whole and shared in an intentionally respectful way - respectful of the soil, farmer, livestock, crops, and consumer.

Slow Business...

Slow Business seeks to focus on inter-personal relationship, bringing those who make products or offer services in direct relationship to the consumer, focusing on quality over quantity. Slow Business asks us to be conscious of how and why we consume.

Slow Art...

Slow Art invites the viewer to view and purchase Art in a slow and thoughtful manner - to consider the long term effects and value of the culture and history of Art and Art objects on humanity.
